

# TIRES & TREADING

California Tire Dealers Association

As the saying goes:

“There are many ways to skin a cat”

And Thomas Seeno

Cutino’s Tire in Oakley

certainly has a unique way

of doing it

(See story on page 8)

---

CARB’s( California Air Resources Board) new regulation regarding tire inflation took effect September first, 2010. CARB did not communicate this regulation to tire and car dealers - but even if they did no do so - it is now an “official fact.”

Our members have been informed of the development for the last 6 - 9 months. In the last issue we asked you to comply with the regulation by September 1, 2010.

**Being a member of our association means that you are always on the cutting edge of all developments in Sacramento. In each issue we have a “legislative report” by Terry Leveille - it is a must read report.**
